GAMES SHIPPED

2+
YEARS EXPERIENCE

Unity developer experienced in building casual mobile games from prototype to release.
Specialized in monetization, analytics tracking, and performance optimization on Android & iOS.

CAPABILITIES

Skills & Technologies

LANGUAGE & ARCHITECTURE C#, OOP, SOLID, Singleton, Object Pooling	**UNITY ENGINE** Physics 2D/3D, Animator, Coroutine, Addressables, uGUI, TextMeshPro, DOTween, Particle System
MONETIZATION & ADS AppLovin MAX, AdMob, Native Ads (Java), Rewarded, Interstitial, Banner, App Open, IAP	**ANALYTICS & ATTRIBUTION** Firebase Analytics, Remote Config, Crashlytics, Adjust SDK, Facebook SDK
PLATFORM & BUILD Android, iOS, TikTok Mini Game, Android Studio, Fishnet (Online)	**TOOLS & WORKFLOW** Git / Fork, GitHub, Claude AI, Unity MCP

PORTFOLIO

Featured Projects

Art Drop Puzzle • LIVE

Jul 2026 · EZTech & CDT Games Studio

- Ad integration: rewarded, interstitial, banner (AppLovin MAX / AdMob)
- Adjust SDK for attribution tracking
- Addressable asset management with remote catalog support

Unity · AppLovin MAX · AdMob · Adjust · Addressables · Remote Catalog

Google Play → App Store →

Dog Barking Battle: Bow Bow • LIVE

Jun 2026 · EZTech & CDT Games Studio

- Built gameplay systems for 3 modes: Story, Rank, and Endless
- Built the full UI system; Addressables for textures, prefabs, and more
- Firebase event tracking per spec + Adjust SDK · Localization across 10+ languages

Unity · AppLovin MAX · Firebase · Adjust · DOTween · Addressables

Google Play → App Store →

Brush The Cat • LIVE

Apr 2026 · EZTech & CDT Games Studio

- Native Ads (AdMob) implemented at the Android Java layer
- Mini-game systems: Save the Cat, Barking Battle, ...
- Firebase event tracking + Adjust SDK · Localization across 10+ languages
- Built TikTok Mini Game with ads integration

Unity · Addressables · Java (Android) · AdMob · AppLovin MAX · Firebase · Adjust · DOTween · Facebook SDK

Google Play → App Store →

XO King – Tic Tac Toe Online • LIVE

Oct 2025 – Dec 2025 · EZTech & CDT Games Studio

- Online / Local / Bot modes backed by server API
- Social systems: leaderboard, friends, chat, challenges
- Firebase, Adjust, IAP, and ad integration · TikTok Mini Game build with ads

Unity · DOTween · AppLovin MAX · Firebase · Adjust · IAP · TikTok SDK · Fishnet · Socket.IO · REST API

Google Play →

Hole Monster: Online • LIVE

Aug 2025 – Oct 2025 · EZTech & CDT Games Studio

- Used Fishnet to build the online mode's networking logic
- Built the UI for the online mode
- Firebase event tracking per spec + Adjust SDK

Unity · Editor Tools · uGUI · Fishnet · AppLovin MAX · Firebase · Adjust

Google Play →

Tile Maze • IN DEVELOPMENT

Mar 2025 – Apr 2025 · VLion

- Level design tool for the Level Design team
- UI flow: Splash, Home, Game, Shop, Leaderboard

Unity · Editor Tools · DOTween · uGUI · Addressables

Diamond Factory • LIVE

Mar 2025 – Apr 2025 · VLion

- Level design tool for the Level Design team
- UI flow: Splash, Home, Game, Shop, Leaderboard

Unity · Editor Tools · DOTween · uGUI · Addressables

Google Play →

Royal Car Customs • LIVE

Sep 2024 – Apr 2025 · VLion

- Event mini-games: Magic Paint & Lucky Jackpot
- Car creation and customization system · Multi-language localization

Unity · uGUI · DOTween · Localization · Addressables

Google Play → App Store →

HISTORY

Work Experience

EZTech & CDT Games Studio Jun 2025 – Present
Unity Developer

— Integrated cross-platform ads: AppLovin MAX, AdMob (rewarded, interstitial, app open, banner, native)
— Firebase Analytics + Adjust SDK for tracking & attribution
— Successfully built a TikTok Mini Game with ad integration
— Researched and prototyped an online game using Fishnet networking

VLion Sep 2024 – May 2025
Unity Developer

— Built and optimized gameplay systems for a mobile game
— Contributed to UI/UX design and game design direction

BlackStar Lab Jul 2023 – Nov 2023
Intern Unity Developer

— Built UI with uGUI/TextMeshPro for gameplay screens
— Integrated Firebase Analytics and AdMob into the project
